6 About the Halo Report™

What is the Halo Report™?

Angel Group Investment Trends: The Angel Resource Institute, Silicon Valley Bank and CB Insights set out to raise awareness of early stage investment activities by angel investment groups. The Halo Report is the result. The research series highlights angel investment activity and trends in North America and provides much sought after data that has not been previously available to entrepreneurs or early stage investors.

The Halo Report includes aggregate analysis of investment activity by angels and angel groups and highlights trends in round sizes, location and industry preferences. The data is collected via survey and aggregation of public data using CB Insights innovative data analyses.

Get Involved: Angel groups and individual angel investors interested in including their data in the Halo Report should contact JJ Knight, Halo Report Coordinator: 910-523-5503 and jj@angelresource.org.

Understanding the Data:
Special Round Types and Industry Sectors

The Halo Report™ provides analysis and trends on US angel and angel group activity.

Angels and angel groups invest alone, together, and with many other types of investors. Unless otherwise noted the Halo Report data includes all rounds that have at least one angel group participating and may include other types of investors in those rounds.

This report discusses angel group investment trends for 2013, which represents a total of 884 deals and $1.1B (excluding duplicates) in total rounds including co-investors.

A few charts report on an “Angel Round,” a special classification of investment when angel groups invest alone or just with other angels and angel groups.

Unless otherwise noted, values of less than <1% are included, but are not labeled or noted as a change in activity.

Halo Report Industry Sectors

- Internet
